

# Course 4, Wednesday Group, Class of 2025: Compatibility

## Schedule:

Aug 2023: 30  
(no class Sep 6, Memorial Day is Sep 4)  
Sep 2023: 13 20 27  
Oct 2023: 4 11 18 25

## Overview of homework:

1. There are 1 to 2 hours of videos to watch each week.
2. One video of 20 minutes due on the last class. The consultation should be about compatibility. You can be talking to one person about their relationship to another person or you can be talking to both people. You can make a longer video and tell me at what time into the video to start listening to the part on compatibility. If you are consulting one person about their relationship to another person, then you need your client to have permission from that other person to interpret their chart. Both charts must have AA accuracy (from a birth certificate or birth record).

For most of you there are 2 things to be aware of for making recordings:

1. How to record the meeting. There are several good choices. Most people use Zoom but Zoom is limited to 40 minutes with the free service. Google Meet is another alternative and at website page <https://support.google.com/meet/thread/197446308/is-there-a-time-limit?hl=en#:~:text=One%2Don%2Done%20calls%20for,for%20up%20to%2060%20minutes> it says that a meeting with 2 people can be up to 24 hours. I have not used Google Meet but people report that it is easy to use. For 3 people there is a limit of 60 minutes. You might want to try Google Meet. If any of you have experience with Google Meet, you can share your experience with the rest of the class.
2. How to provide a link to the video. At <https://www.airgram.io/blog/where-do-google-meet-recordings-go#:~:text=Find%20Google%20Meet%20recordings%20in%20the%20Email&text=>

[To%20access%20the%20recording%2C%20click,webm%20file](#) is an explanation of how to share a Google Meet recording. Evidently Google Meet sends you a link to the recording all you have to do is forward the email to me or just send the link. If you are using Zoom to record the meeting, you can upload the video to your Youtube account and save it as Unlisted, and then send the link to the video to me. Youtube claims that Unlisted videos cannot be accessed by Search engines and the only way to see the video is for someone to have the link to the video. This appears to be true. If you are unable to upload videos longer than 15 minutes, this video explains how to upload longer videos:
