

NEWSLETTER 2015

KEPLER VERSION 8 PRESS RELEASE!!!

A very exciting program release in 2015! With Kepler 8 you have the same elegant user interface that is in Sirius. Kepler 8 has features that previously were only in Sirius.

- *The new Kepler 8 program sets a new standard for power, flexibility, and ease of use for astrology software in this price range.*

Kepler is adequate for any level of experience, from novice to professional. Novices can stick to the basics, and experts use the advanced features. Some of the reasons why people choose Kepler are:

More elegant and advanced chart wheel adjusting that is in Sirius

Improved appearance and user interface. Kepler has been updated with the improvements to the user interface that are in Sirius.

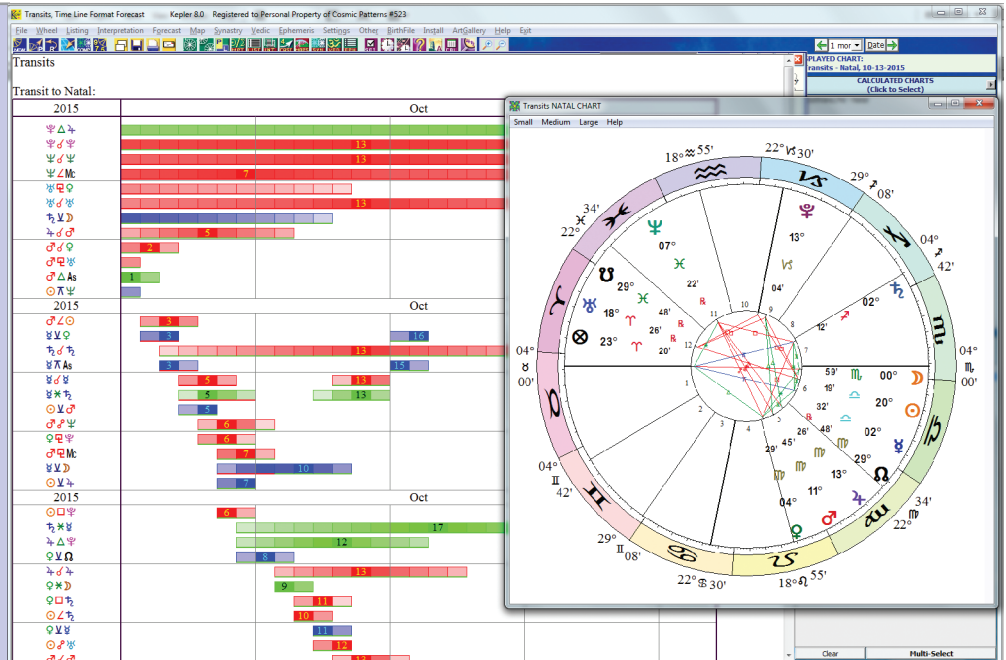

Figure 1: Kepler Main Screen with Time Line and Popup Wheel

More ways to progress the chart such as PSR Method, Quotidian, etc.

Also included in Kepler 8 is the **Conception Chart (E.H. Bailey Method)**: Also known as "Bailey Conception Chart. The Conception Chart is the chart for the time that the baby was conceived about 9 months before birth. E. H. Bailey published his classic book "The Prenatal Epoch" in 1916, which describes that the Ascendant at the time of birth and Moon at the time of conception are related to each other

There are many other enhancements and improvements throughout the program (see page 2). Kepler is not only for professional astrologers to use but also the best program for learning astrology!

flexible Page Design-
er with Drag & Drop
elegance. Enjoy creat-
ing your own wheel
style with ease.*

Wheel Patterns: This is another exciting new feature in Kepler 8. Wheel Patterns are patterns formed by 3 or 4 planets. There are two kinds of patterns; the most common pattern is formed by 3 or 4 planets being in aspect to each other. Another pattern is 4 planets forming a symmetrical shape. You can also produce compatibility patterns.

4 Planet Patterns - 3 in 1 Chart & 1 in the Other

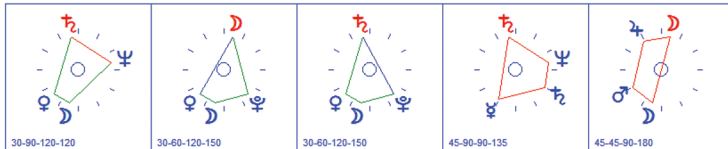

Figure 4: Compatibility Patterns

Add Asteroids to any chart wheel: It is also possible to add up to 20 Asteroids to any chart wheel types and styles.

Animated Chart Wheels: Now comes with Single Wheel, BiWheel, TriWheel, and QuadWheel animation.

Interactive Time Adjust: Interactively adjust a chart forward and backward in time to when an aspect is exact or to a particular time. This interactive adjusting is available in multi-wheels as well.

New "Return" Charts: You can also now select phase angle returns, converse solar and converse lunar returns, and diurnal charts.

Other New Features: Harmonic Age Chart and Refraction table, Circular Temple Degree Meaning report, original Sabian Symbols by Mark E. Jones.

The price of Kepler is still just \$300. Upgrade prices are posted on our web site. By the end of the year, some of the unique features in Sirius will be available as add ons to Kepler 8:

- Automatic Rectification, Astro*Calendar, Star Guidance Report, Asteroids Report, Planet Mandalas, Weather Forecast, and Accident Forecast.

This way you can add just the additional features you want at a lower cost than upgrading Kepler to Sirius. If you want all of these features however, you can purchase or upgrade to Sirius instead.
