Introduction

Transits to Angles

Location charts respond to transits very much like your natal chart. Although Jupiter, for instance, may not be transiting your natal Ascendant right now, it is transiting your relocated Ascendant somewhere, and that somewhere is likely where you'll easily get a lot of extra attention and enhanced personal prospects if you go there or start doing business with people there. The same goes for the rest of the planets, so you can travel to seek or to escape their transits at the place of your choice.

Planets on Angles

Any planet on one of the angles (Ascendant, MC, Descendant, IC) of your relocation chart will be greatly strengthened when you are at the place of relocation, very much like if it were on the angles of your natal chart. If the Sun is on an angle, you'll have more confidence; if Mars is there you'll have more energy, and so on. Moreover, you don't have to actually go there to get the effect. Having a planet on a relocated angle will accentuate that place for you even if you are only doing business with people there over the phone. You have an accentuated quality to people in such places that you may not have elsewhere.

Transit Saturn On DS (Strong)

This might not be the place to go right now, unless you love pressure and hard work. That doesn't mean you'll get work here, perhaps the opposite, but you'll be expected to do double duty in any case. If you want to look older, it's the place to be, as you'll appear a bit more serious and traditional. Expect at least a year of this here.

Transit Venus Ssq AS (Strong)

Attending to business and home affairs here may have you a little disheveled in the next week or so. As a result, you may find it takes a little extra time and effort to look your best or get noticed among the crowd. But first things first, and when you get to it, you get to it. Priorities change, change with them.

Transit Moon Sxt IC (Strong)

The press here is with you for a day or so and you get general support all around for doing a good job, whether you have or not. Accept compliments but keep your eye on the ball, as tomorrow could bring a different view with as little good reason for it. Be able to show that beneath it your reality is firm and you're on point.

Transit Venus Tri IC (Medium)

People here are quite taken by your reputation for the moment, so take advantage of the good press to cash in some chips and make a few more investments. A window of a week or so allows for well-supported career moves here that may tide you over when there's less of a free ride to be had later.

Transit Mercury Ssx AS (Medium)

It's extra easy to get your message across to people here right now, because they'll tend to come to you and make contact when they see you. A couple of weeks or so as a facilitator can't hurt, and it's a good time to collect local contacts that you can use later when they don't just drop into your lap.

Transit Neptune Sqq AS (Medium)

You may find that your image doesn't always slip easily into the current local fantasy right now, and as a result you may be seen as an outsider or an interloper. It's about how you physically present yourself, and there's little to be done except to demonstrate that you can't judge a book by its cover.

Transit Mars Ssx MC (Medium)

This month-long window gives you extra support and energy to fuel career projects here, and anything in general that promotes building your reputation. Good things said about you now are currency you can take to the bank -- and you should, before their expiration date. Use the budget, because you'll lose what you don't.

Transit Jupiter On DS (Medium)

This year is the perfect time to be here for you, as you'll appear to represent the very latest, newest, coolest thing happening around these parts. It's all about how you look in person, so dress the part and perfect the lines that get the most applause. Next year you cash in on it here and replay a similar game two time zones east of here. And, oh, watch your weight.

Transit Sun Sxt AS (Medium)

A couple of weeks of confidence in the way you appear here are in store, but it's temporary and local, so make hay while the sun shines. Play off your personal presentation and build support that you may need next month when your authority could be challenged. Look good, and use it to look even better.

Transit Mars Sqq AS (Medium)

Your physical energy here may be overtapped by too much distraction on both home and career fronts this month, so don't overbook yourself. Leave room for wastage and repeat efforts that can drain you more than you expected. Rash moves come easy in the heat of the moment, so keep your eye on one ball at a time if you can.

Transit Neptune Ssx MC (Mild)

Your particular set of accomplishments are seen here for some considerable time as being rather ideal and fitting right in to the local drama. That may not actually be the case, but why fight a good thing if playing along can benefit you and educate you at the same time? Embrace the dream and see how you like it.

Transit Uranus Sqr AS (Mild)

The ride can be bumpy here for a year or two at least, as you may alternately be seen as leading the pack or going against the grain, with not much compromise in the middle. The answer is to be as steady as you can yourself so you come out the other side saying I told you so, not I wonder what just happened.

Transit Sun Sqq IC (Mild)

You may find yourself having to do some extra efforts here to maintain your status and credibility for a couple of weeks or so. Competing factors make it necessary to demonstrate that you should be preferred over others who may be grabbing the spotlight. You can do that by simply repeating the truth about the situation.
