Ruby

In the birth chart with Cancer (Karaka) Ascendant Sun is the lord of the second house, the house of wealth. Sun is also a friend of Moon, the lord of Cancer Ascendant. If there is loss or lack of wealth or trouble in eyes on account of the unhappy disposition or affliction of Sun in the chart, wearing a Ruby will prove very helpful. The second house is also a maraka house (house of death). Therefore, it will be better if Ruby is worn along with Pearl which is the gem stone for the lord of Cancer Ascendant. The beneficial results will be more pronounced in the major period and sub-periods of Sun.

The Ruby to be worn should be at least 2.5 carats in weight and should not have the inauspicious flaws. It should be got set in a ring of gold mixed with copper on a Sunday, Monday or Thursday.

This ring should be a touching ring so that the stone touches the skin. The ring should be worn as soon as possible after sunrise on a Sunday of the bright half of the lunar month. It is very important for all gem stones that before wearing them they should be kept immersed for sometime in unboiled milk or Ganges water. Afterwards the stones should be worshipped with flowers and incense, and the Mantras of the planets should be recited 108 times. The ring should be worn in the ring (third) finger. The Ruby is a very expensive gem stone and those who can not afford to purchase a Ruby, can use any of the following substitutes: Red Spined, Star Ruby, Pyrope Garnet, Red Zircon or Red Tourmaline.

Pearl

For the Cancer Ascendant Moon is lord of the Ascendant. For the natives of this Ascendant, Pearl will prove very beneficial and they should wear it throughout their lives. The Pearl will ensure good health and long life. It will make life smooth, free from mental disturbances and will improve finances.

The Pearl to be worn should be of 2, 4, 6, or 11 carats. It should be purchased and set in a silver ring on Monday or Thursday (never Saturday) and after observing the other rituals mentioned earlier and reciting the following Mantra 108 times, the ring should be worn on a Monday morning in the bright half of the lunar month. Those who cannot afford to buy a Pearl can wear Moonstone, white sapphire is also advised as a substitute by some authorities ; but it is not a cheap stone. The ring should be worn in the ring finger of the right hand. The Pearl or its substitutes should never be worn with Diamond, Emerald, Blue Sapphire and Cat's Eye and their substitutes.

Red Coral

For the Cancer Ascendant Mars being lord of the 5th a trine (trikona) and 10th houses quadrant (kendra) is a very auspicious (yoga Karaka) planet. If it is worn always by the natives of this Ascendant they will be blessed with children, intelligence, good fortune, name, fame, honours, and success in their professional career. If Red Coral is worn with Pearl—the gem stone of the lord of Cancer ascendant results will prove more beneficial. The beneficial results will be more pronounced in the major period of Mars.

Red Coral should be set in ring of Gold mixed with copper The weight of the stone should not be less than carats. The stone should be purchased and got set in the ring on a Monday, Tuesday or Thursday. The ring after observing the usual rituals, should be worn one hour after sunrise on a Tuesday of the bright half of the lunar month in the ring finger of the right hand.

Emerald

For the Cancer Ascendant Mercury is lord of two inauspicious, houses the 3rd and the 12th. It will, therefore, be not advisable for natives of this Ascendant to wear Emerald. Moreover, Moon, the lord of this Ascendant, is an enemy of Mercury. However, if Mercury is in his own sign in the 3rd and 12th emerald can be worn, if at all necessary, in the major period of Mercury.

The Emerald should, as far as possible, be set in a silver ring on a Wednesday. Fridays and Saturdays will also not be inauspicious for this work. Then after observing the prescribed rituals and reciting the following Mantra 108 times, the ring should be worn in the little finger of the right hand about two hours after sunrise, on a Wednesday of the bright half of the lunar month.

Yellow Sapphire

For the Cancer Ascendant Jupiter will be lord of the 6th and 9th houses. Being lord of the 9th, a Trine, Jupiter is considered to be an auspicious planet for this Ascendant. Consequently wearing a Yellow Sapphire will bless the native with good children, high education, charitable and religious inclinations, good fortune, wealth, name and fame. The results will be more pronounced in the major and sub-periods of Jupiter. If the Jupiter is in the Ascendant he will be exalted and in 9th he will be in his own sign. These dispositions give rise to powerful Raja yogas and a Yellow Sapphire will enhance the beneficial results of the yogas. The native of this Ascendant can expect more favourable results if he wears a Yellow Sapphire with Red Coral or Pearl. Mars who rules over Red Coral (and is a yoga karaka for the Cancer Ascendant) and Moon who rules over Pearl is lord of the Ascendant and both are the friends of Jupiter.

Yellow Sapphire should always be got set in a gold ring on a Monday or Thursday. The weight should not be less than three carats. It should not be of 6, 11 or 15 carats. After observing the usual rituals the ring may be worn in the ring finger of the right hand on a Thursday morning of the bright half of the lunar month. The substitutes for Yellow Sapphire are Yellow Pearl, Yellow Zircon, Yellow Tourmaline, Topaz and Citrine (Quartz Topaz). Diamond, Blue Sapphire, Gomedha and Cat's Eye should never be worn with Yellow Sapphire.

Diamond

For the Cancer Ascendant Venus will be lord of the 4th and the 7th houses. According to the principles of Hindu Astrology lordship of those houses does not make Venus an auspicious planet for this Ascendant. Moreover, Moon, the lord of this Ascendant, is an enemy of Venus. Still we feel that the 4th and the 11th are auspicious houses and wearing of a Diamond in the Major period of Venus will prove fruitful, particularly if Venus is in his own sign in the 4th or in the 11th.

Diamond is very expensive stone. It will, therefore, do if a Diamond of minimum weight of 1½ carats is used. It should be set in platinum or silver ring and worn in the little finger of the right hand. The ring should be worn after observing the usual rituals on a Friday morning of the bright half of the lunar month. The substitutes for Diamond are White Sapphire, White Zircon and White Tourmaline. The weight of the stones should not be less than 3 or 4 carats. The cheapest substitute (costing about a rupee per carat) is White Rock Crystal (Sphatik). This stone, if worn, should be of 11 carats. Diamond should never be worn along with Ruby, Pearl, Red Coral and Yellow Sapphire.

Blue Sapphire

For the Cancer and Leo Ascendants Saturn will respectively be the lord of the 7th house, and 8th house and the 6th and 7th houses. The 6th and 8th are very inauspicious houses and the 7th is a death inflicting (maraka) house. The lords of these Ascendants are also enemies of Saturn. The natives of these two Ascendants should never wear a Blue Sapphire.

Blue Sapphire should be got set in a ring of steel (if that is not possible Ashta Dhatu should be used) on a Saturday (or Friday) and after observing the usual rituals and reciting the following mantra 108 times, the ring should be worn in the middle finger of the right hand on a Saturday two hours before sunset. The Blue Sapphire should be of at least 5 carats. The substitutes for Blue Sapphire are Blue Zircon, Amethyst, Blue Tourmaline, Lapis Lazuli, Blue Spinel, and Neeli. Ruby, Pearl or Yellow Sapphire should never be worn along with Blue Sapphire.
